

Start-ups questions:

General Questions:

1. Can you tell me a bit about your startup and its mission?
2. What are some of the biggest challenges you face as a startup in Tunisia? (general challenges)
3. How do you usually find new opportunities or projects for your startup?
4. How do you typically secure funding or support for your projects?

Specific Questions:

1. Have you ever worked with government entities or public institutions on a project? Can you describe the experience?
2. How do you currently find out about opportunities related to public projects?
3. What specific types of funding or support would help your startup grow?
4. What are your thoughts on working with government bodies or public-private partnerships (PPP) for innovation projects?
5. What challenges do you face in pitching your ideas to potential investors or government structures?
6. What kind of documents (government policies, or legal guidelines..) you find it helpful?
7. If you found more encouragement, funding, or support in the road safety domain, would you consider proposing ideas or pivoting your startup to work in this sector?

UI/UX Questions:

- 1.What kind of platforms do you currently use to search for funding or projects? Are there any features you wish these platforms had?
- 2.When navigating a platform to find relevant opportunities, what information or tools do you find most helpful?
- 3.How would you like to interact with investors or government bodies on a digital platform (e.g., live pitching, project proposals, direct messaging)?
- 4.When using the platform, what information would you want to see first? (e.g., funding opportunities, investor profiles, startup pitches)

Investors questions:

General Questions:

- 1.Can you tell me about your role as an investor and the types of projects you typically invest in?
- 2.What are your main criteria when evaluating investment opportunities?
- 3.How do you usually discover new startups or projects to invest in?
- 4.What challenges do you face when looking for suitable investment opportunities?
- 5.What industries or sectors do you find most promising for investment in the current market?

Specific Questions:

1. Have you ever invested in startups working on public sector projects or innovations? What influenced your decision?
2. How do you assess the potential of a startup in terms of impact and scalability?
3. Have you ever collaborated with government structures or public-private partnerships (PPP) in your investments? How was the experience?
4. What kind of incentives or guarantees do you look for when investing in startups?
5. How involved do you like to be in the startups you invest in, do you prefer active participation or a more hands-off approach?

UI/UX Questions:

1. What platforms or tools do you currently use to discover new investment opportunities? What do you like or dislike about them?
2. When evaluating a startup, what key information do you need to make an informed decision?
3. What features would make an investment platform more appealing and efficient for you?
4. Would you be interested in a platform that allows you to interact with startups through live pitching or direct Q&A sessions?
5. What would make a platform trustworthy and reliable for investment decisions?

For Government Representatives:

General Questions:

1. Have you ever worked with startups before? If so, can you tell me about your experience?
2. In your role, do you often come across startup-driven projects? If not, would you be open to collaborating with startups in the future?
3. What types of projects or innovations are most relevant to your needs or interests?
4. How do you usually find new solutions, services, or partners for your projects?
5. What challenges do you face when trying to collaborate with innovative businesses or startups?

Specific Questions:

1. What key factors influence your decision to work with a startup?
2. What are the biggest risks or concerns you have when partnering with startups?
3. What kind of support, guarantees, or assurances do you need before engaging with a startup?
4. Are there any legal, financial, or bureaucratic barriers that make it difficult to work with startups?

UI/UX Questions:

1. Do you use any platforms or tools to discover startups or innovative solutions? If so, what do you like or dislike about them?
2. What key information do you need to see before considering a startup for collaboration?
3. What features would make an online platform more effective for discovering and assessing startup projects?
4. Would you be interested in interacting with startups through live pitching, direct Q&A sessions, or other engagement methods?
5. What would make an online platform trustworthy and useful for you when evaluating startup partnerships?
